HOW TO MEASURE

MEASURE TOTAL LENGTH WITH TAIL FIN COMPRESSED

1. Place the fish on its side with the jaw closed.
2. Squeeze the tail fin together to obtain the maximum overall length.
3. Measure a straight line from the tip of the snout to the extreme tip of the tail fin.

*Some locations have special bag or length limits. See current regulations at OutdoorAnnual.com

PROTECT THE LAKES YOU LOVE.

Clean, drain and dry your boat before traveling to another lake.

Do your part to stop the spread of invasive species. Keep Texas lakes fun for everyone. TexasInvasives.org
