Display Facilities

- Panels will be available for display of each poster.
- Electrical outlets will not be provided in the poster presentation area.

Preparation of a Poster

- Posters can be printed on one sheet so that it is easy to transport, or on separate panels for individual mounting.
- Posters should be readable from a distance of 6 feet. Capital letters should be at least 3/8 of an inch high after enlargement to full poster size. Photographs should be a minimum of 5 x 7 inches.
- You may prepare handouts for distribution at the meeting. The handouts should be directly related to the topic of the poster and must not contain any advertising.
- Your poster should be self-explanatory so that you are free to supplement and discuss particular points raised by enquiry.
- Arrange the material in main sections, each of them without too many details but with a common thread.

Poster Layout

- Avoid overcrowding figures and cramming too many numbers into tables. Legends and titles should accompany all figures, tables, photographs, etc. in order to allow their immediate identification.
- Neither commercial activities nor any advertising may be displayed on the posters. Not complying with this rule will result in the poster being removed.

Presentation Schedule

- Poster setup, takedown, and viewing time will be announced in the conference schedule.
