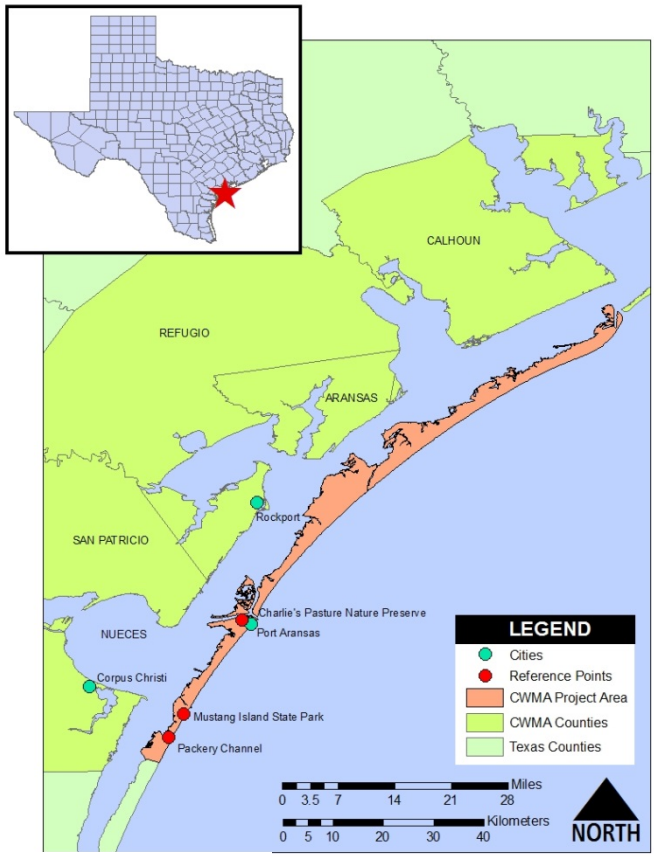
Texas Gulf Region
Cooperative Weed Management Area (CWMA)

What is the Texas Gulf Region CWMA?

The Texas Gulf Region CWMA is a voluntary network of public and private interests that are concerned with the management of invasive species like Brazilian peppertree.



Why do we need a coordinated effort to address invasive weed issues?

- Better invasive species control
- More funding for weed control activities
- Greater efficiency in use of funds and staff
- Early Detection, Rapid Response

First TX Gulf Region CWMA Workday Event (Feb. 2014)

Dr. Ron Billings, Texas A&M Forest Service

What can you do?

Any individual or organization that is concerned with the spread of invasive weeds can join. It costs nothing to join and there is no obligation.
